## INTRODUCTION

This publication presents international merchandise trade statistics up to the September quarter of 2013. It follows on from Statistical Bulletin 13/2013.

This publication follows the United Nations definitions and compilation practice of merchandise trade statistics. Technical notes relating to data sources, classification of commodities, valuation, timing of recording and other technical issues can be obtained from the Statistics Office on request.

The primary data source used in compiling merchandise trade statistics is the Customs and Excise Division's import and export entries. Other secondary data sources used include the Central Bank of Solomon Islands' balance of payments data (BOP), administrative records from the Commodity Export Marketing Authority (CEMA) and import/export records furnished by major importers and exporters.

Major data limitations highlighted in previous bulletins are again noted here for ease of reference as follows:

1. Data from Customs and Excise Division is in unedited format and validated only at the aggregate level. This means that statistics on the volume of trade cannot be compiled adequately given the poor quality of the data.
2. Data from Customs and Excise Division represents mainly trade through Honiara port and to a lesser extent data from other outer island ports.
3. Data from 1998-2000 and the first two quarters of 2009 is unavailable or incomplete for the purpose of a time series covering these periods.
4. Data on illegal trading of goods, which may include significant quantities, is not captured in this publication.
5. A number of other secondary data sources were used to adjust for discrepancies in the data from Customs and Excise Division

Small discrepancies between totals and sums of commodities in tables are due to rounding.

The following symbols are used in the publication:

- Nil if representing a value
- Negative change if representing a percentage change
- + Positive change if representing a percentage change
- p Preliminary or provisional figure, subject to revision
- e Estimated
- r Revised
- n/a Not available or not applicable.

**HIGHLIGHTS**

The merchandise trade balance recorded in the September quarter of 2013 showed a deficit of \$224.8m. This was an increase of \$154.1m (218.2%) over the recorded deficit of \$70.6m in preceding quarter and \$244.9m (1213.8%) over the surplus of \$20.2m recorded in the corresponding quarter of 2012. The September quarter deficit was 26.0% of total exports for that quarter.

The year ended September 2013 recorded a deficit of \$542.2m compared to an average of \$782.7m for the recent three years ending September.

Merchandise trade by major commodity in the third quarter of 2013 compared to the corresponding quarter of 2012 recorded the following:

## Major Exports

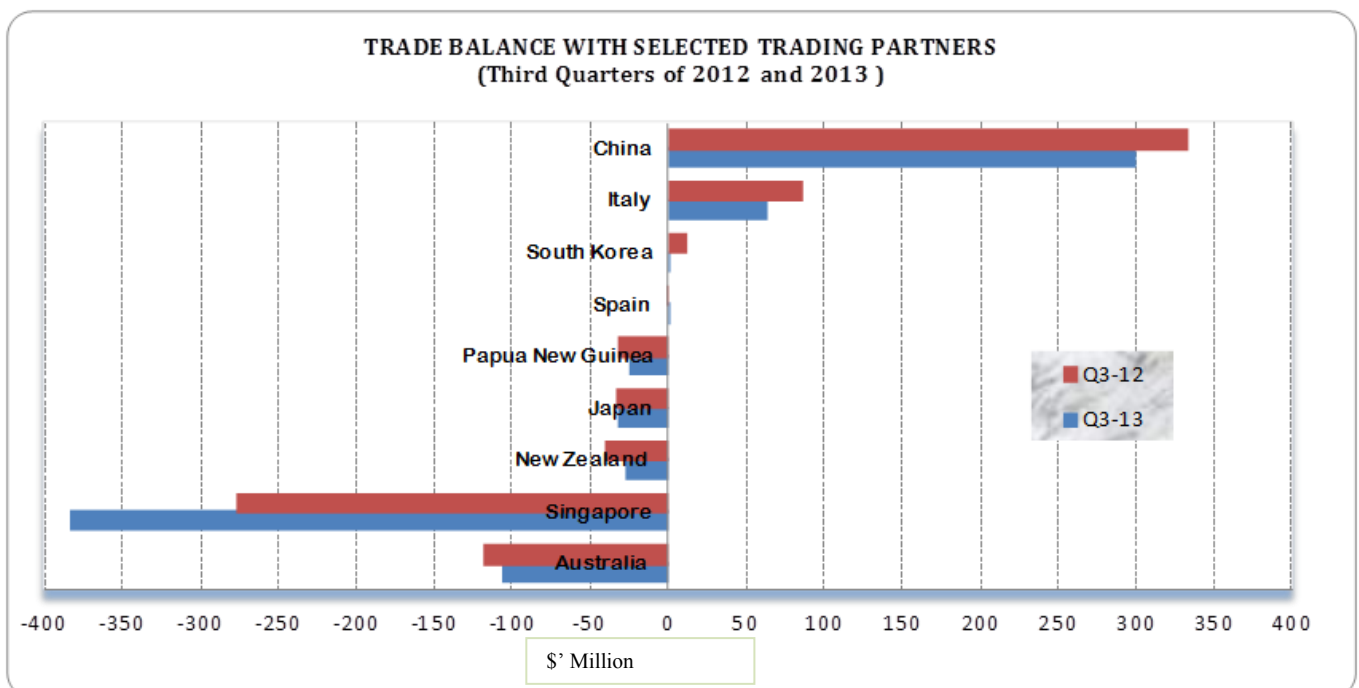

- Round log & sawn timber exports fell by \$28.3m (6.2%) to \$427.4m; this was attributed to adverse weather conditions leading to lower log output.
- Total of fresh/frozen and canned fish declined by \$83.3m (37.0%) to \$142.2m, this was due to low fish catch for the quarter.
- Total of copra, cocoa, palm oil and other agricultural products also dropped by \$4.9m (4.7%) to \$100.3m; this resulted in low production of copra and crude palm oil during the quarter.
- Gold, which has newly emerged as a major export commodity, rose by \$6.9m (4.4%) to \$163.0m.

## Major Imports

- Food imports, which comprised mostly rice and canned meat, fell by \$11.5m (5.6%) to \$195.0m.
- Mineral Fuel & Lubricant imports went up by \$160.9m (68.8%) to \$394.7m.
- Imports of machinery and transport equipment increase by \$25.3m (12.4%) to \$228.9m.

Merchandise trade balance with major trading partners in the September quarter of 2013 compared to the previous corresponding quarter records the following:

- The trade deficit with Singapore, the main source of fuel imports, increased by \$106.8m (38.6%) to \$383.4m.
- The trade deficit with Australia fell by \$11.1m (9.4%) to \$107.0m.
- The deficit with Papua New Guinea declined by \$7.8m (24.2%) to \$24.4m.
- The surplus with South Korea fell by \$11.1m (93.2%) to \$0.8m driven by lower log exports.
- The trade balance with Spain improved from a deficit of \$0.2m to a surplus of \$1.0m.
- The trade surplus with China, the main destination of exported logs, dropped by \$33.0m (9.9%) to \$300.0m.
- The trade surplus with Italy, the main destination of fish-loin exports, declined by \$22.9m (26.4%) to \$64.0m.
