release of Visitors Bulletin "3rd Quarter 2026"

ABOUT THE BULLETIN

Concepts and Definitions

Persons entering the Solomon Islands classify themselves into three (3) categories; returning resident, intending resident, and visitor. The concepts and definitions of the various categories are as follows:

(i) Returning residents

- Solomon Islanders and non-Solomon Islanders who have left the country and are returning to continue their residence.
- Non-Solomon Islanders include resident permit holders' Diplomatic officials, and their immediate family members. This also includes persons residing for 12 months or more or under specialized legal or official arrangements.

(ii) Intending residents

- Non-Solomon Islanders who wish to take up residence in the Solomon Islands.

(iii) Visitors

- Any traveler who is not a Solomon Islander and their stay and intention of stay should last no more than 12 months[1], in the country and does not have permanent/contract employment.
- *Tourist*
    - Visitors who state their purpose of travel as being for *'holiday and vacation'* and *'transit'*.
    - Visitors who are transiting (with on-ward final destination) and have stated their purpose of travel as being for 'holiday and vacation' are treated as transit-tourists, and classified broadly as tourists. This includes a limited number of visitors who are simply transiting for other purposes. The latter is subject to review as NSO continues to progressively align its definitions and concepts to meet changing regional and international standards.
    - Spouse/partner accompanying husband/wife/partner on business purposes is treated as a private tourist unless the person is also engaged in a similar or related work activity remunerated within the place visited.
    - In line with the World Tourism Organization WTO definition of Tourism:
      It comprises the activities of persons traveling to and staying in places outside their usual environment for not more than one consecutive year where pleasure is the predominant motivation.

(iv) Markets

- The country of Usual Residence is referred to as 'markets' by the Solomon Islands Visitors Bureau.

Note: There may be some variations in the total number of visitor arrivals reported by the National Disaster Office/Ministry of Health under the government's State of Public Emergency response to the COVID-19 pandemic and the NSO. However, the NSO will continue to adhere to its data collection process and dissemination of the results.

Note: For Quarter 1, 2018 onwards the National Statistics Office will be using the new set of definitions provided by the South Pacific Tourism Organization (SPTO).

(v) Arrivals from China

Arrivals from Hong Kong been grouped under China. Information can be provided separately upon request.

Data Quality Statement: Visitor Statistics

Data Source:	Information on International arrivals is captured through the Immigration Incoming Passenger Declaration Form.
Institutional Environment:	**Data Collector(s):** The Solomon Island National Statistics Office (SINSO) Social Unit does data entry from the Immigration incoming passenger declaration Form at the Solomon Islands' Immigration Department, Ministry of Commerce, Immigration and Labour. **Collection authority:** The data was collected under the Immigration Act, Statistics Act 1970 (and 2007 Amendments), and the Census Act 1959. **Data Compiler(s):** The Solomon Islands National Statistics Office compiles the data. **Additional information:** Statistical confidentiality is guaranteed under the Statistics Act 1970 (and Amendment 2007. All staff sign an oath of secrecy which prevents them from disclosing any individual's information. If errors are identified then they are corrected and the bulletin is re-released.
Relevance:	**Data topic:** The data represents returning residents, intending residents, and visitor arrivals to the Solomon Islands. Data is mainly from air arrivals. **Level of geography:** The data mainly covers arrivals to Honiara. However, from March 2019, the data will also cover air arrivals to Munda. **Key Data Items:** The key variables produced in this bulletin are the sex, age group, carrier, occupation, country of residence, and purpose of visit for visitors including tourists. **Additional information:** Visitor statistics were collected for the Solomon Islands Visitor's Bureau for planning and the Central Bank of Solomon Islands for monitoring the tourism sector of the economy. Other users may use the information for research. • The data is coded using the United Nations Country Classification and the Pacific Standard Classification of Occupations. • The data does not cover cruise ship arrivals and yacht arrivals. It also does not cover the monetary value of the industry as this information is not available. • Data before 2006 were not available from the data source due to the civil unrest period from 1998 to 2003.
Timeliness:	**Data collected:** The data is collected continuously. **Data available:** The data and published bulletin are usually available 2 months after the end of the previous quarter. **Referenced Period:** The data is collected daily over each quarter and published quarterly.
Accuracy:	**Method of Collection:** The data is collected through all disembarking passengers self-completing a visitor arrivals card. Immigration officers at international check-in counters collect the card on arrival. The Department of Immigration has an arrangement with the Solomon Islands National Statistics Office where they collect the disembarkation cards for the production of visitor arrival statistics.

	Data Adjustments: Quality checks between immigration and SINSO are done monthly and adjustments of data can be made by SINSO where necessary. **Collection size:** The collection size is the entire population of air passenger arrivals to the Solomon Islands. **Under Counts:** There is a known undercount of visitor arrivals to the Solomon Islands. Measures have been put into place to improve the transfer of information between departments. The current definition of visitor and returning residents may result in an undercount of visitor arrivals. This issue is being resolved with stakeholders to ensure consistent definitions are being used. **Additional information:** Data on the purpose of visit, age, and occupation may not be correctly disclosed and may cause a bias. Data processing is mostly automated and quality checks are conducted. Non-reporting is an issue for this bulletin. Disembarkation cards are not always fully completed and the space for reporting on the cards also affects their completeness. Cruise ship arrivals and yacht arrivals are unaccounted for in the data collected.
Coherence:	**Consistency over time:** The data is consistent over time. **Consistency of jurisdictions:** Data is only available for Honiara. There is a consistent time series for this data. **Additional information:** Data for the period covering 'The Tensions' is not available, therefore comparisons cannot be made to that time.
Interpretability:	**Other Supporting information:** Definitions are included in the statistical bulletin.
Accessibility:	Unpublished data can be requested. Users can request data that has not been published by sending an email to the Government Statistician. There is no charge associated with data requests. **Contact:** STATS-management@mof.gov.sb / STATS- SocialDemography@mof.gov.sb **Additional information:** Data are available in spreadsheets which can be downloaded from the Solomon Islands National Statistics Office website: www.statistics.gov.sb Only aggregate data can be publicly released.
